Master's Degree Program

PRE-TRIAL CRIMINAL PROCEEDINGS

The program prepares students for service in law enforcement agencies, work in court and the legal profession. The curriculum of the master's program provides undergraduate students with the opportunity of professional immersion into the professional activities of lawyers in the court, prosecutor's office, investigative and operational bodies, the legal profession, etc.

The educational process involves the forensic laboratories and training grounds of the Law School and its partners - the law enforcement agencies of the region, as well as the training halls of court sessions available at the School.

Research seminars are conducted by judges, prosecutors, investigators, lawyers. Many professors of the program have experience of working in criminal justice bodies or continue to engage in this activity as lawyers, heads of investigative units, etc.

In the process of training, students undergo investigative and prosecutorial (law enforcement) and forensic practice.
